

Renewable Industry Veteran Chintan Shah joins National Solar Energy Federation of India (NSEFI) as Principal Advisor

Shah will be playing a key role in NSEFI's Policy advocacy efforts on all Renewable energy technologies and their proliferation

Renewable Industry Veteran Chintan Shah joins NSEFI as Principal Advisor and will be playing a key role in NSEFI's advocacy efforts to accelerate India's Energy Transition.

Mr. Shah brings with him rich expertise of three decades in various roles across the value chain of India's Renewable Energy ecosystem including Solar, Wind, Storage, Manufacturing, Financing, R&D and Policy formulation. In his previous role, as Director (Technical) at Indian Renewable Development Agency (IREDA), he led the mission for achieving MOU Targets pertaining to Loan Sanctions, Disbursement, Gross Margin, Gross Sales, NPAs, Recovery from NPAs, Corporate Social Responsibility, Sustainable Development, Research and Development etc. He has also spearheaded multiple projects for appraisal, financing, policy formulation, planning and monitoring of Renewable Energy Projects of Wind, Small Hydro, Medium and Large Hydro, Biomass, Cogeneration, Solar Energy, Biogas, Waste to Energy and Energy Efficiency Projects.

Prior to joining IREDA, he was the President at SUZLON Group of Companies. He started his career from TERI as Research Associate in the year 1996 and left TERI in 2001. He joined SUZLON as General Manager in the year 2001. He worked as President with SUZLON till February, 2018 before joining IREDA as the Director (Technical).

As Principal Advisor, Mr. Shah will be guiding NSEFI's policy advocacy encompassing entire Renewable Energy Value chain including Manufacturing while focusing on instruments to enable Affordable and accessible financing along with Industrial Decarbonization.
